

Key Features:

- Capable of lifting loads to greater heights than standard pallet trucks.
- Functions as both a pallet truck and a lifting device.
- Enables easy loading and unloading of pallets at various heights, enhancing efficiency in warehouse and distribution settings.
- Reduces strain on operators by minimizing the need for bending and reaching during loading and unloading.
- Equipped with safety features such as braking systems to ensure safe operation and protect both the operator and the load.
- Space-Saving Design.
- Provides a cost-effective solution for lifting and handling palletized loads at different heights.
- Constructed with durable materials to withstand heavy-duty use in industrial environments.

****On Demand Custom Specifications are Available****

TECHNICAL SPECIFICATIONS

Model	RB-102	
Capacity	Q(kg)	1000/1500
Lowered fork height	(mm)	85
Lifting Height (H)	mm	800/1000
Steering wheel	mm	180X50
Fork wheel	mm	74X50
Fork length (L)	(mm)	1220
Width overall forks (W)	(mm)	550/685
Aisle width for pallets 800x1200 lengthways	(mm)	1985
Turning radius	(mm)	1670
Service weight	(kg)	112
