

Key Features:

- Electric Operation for effortless lifting and lowering of heavy loads.
- Suitable for lifting and transporting goods to different heights.
- Includes safety features such as emergency stop buttons to ensure safe operation and protect operators and loads.
- Reduces strain on operators by eliminating the need for manual lifting.
- Available in various sizes and load capacities to accommodate different lifting requirements.
- Constructed with durable materials to withstand heavy-duty use in industrial environments.

On Demand Custom Specifications are Available

RB-149
